Message From The Shop

Spring has finally sprung! It is always good to flip the calendar forward into a month that is suppose to bring warmer, sunnier weather. It is hard to believe that we are already almost half way through 2015.

We have had some very busy months since our last quarterly newsletter. The body shop continues to see a lot of deer hits. In years past, "deer season" for vehicle accidents was earmarked as late September into November, but the last couple years it seems like they are running crazy every month. Be careful out on the roads and watch

for them. Remember, studies show more damage is done and possible injuries occur when drivers swerve to try and miss hitting a deer. The risk of losing control of the vehicle or striking a tree or other object is much greater.

We believe in staying in tune with the latest proven technology at Oren's. We want to serve our customers with the highest quality repairs, details and washes in the area. Therefore, we are constantly learning about new techniques and equipment to provide our employees with. You may or may not have heard in the news about auto manufacturers leaning toward aluminum to be the metal of the future in the production of vehicles. Why? Two reasons are because aluminum is lightweight and corrosion resistant. Some manufacturers are producing with aluminum as we speak. Of course this new trend will require collision repair centers to have special tools and training in order to properly repair aluminum vehicles back to pre-accident condition. We purchased the aluminum welder in January and sent the technicians to the required training. We are completely staffed with the equipment, proper tools and training to repair the newest vehicles on the road today.

Hope everyone gets a chance to enjoy the upcoming months of warmer weather and longer days. Our family will be spending a week in July attending a wedding in Marquette, MI, visiting colleges for Seth, and fishing and laying at the lake in Rhinelander, WI. Safe travels to everyone.

Meet the Staff - Cullen Oren

How can you not smile when you see this smiling face? If you haven't already, meet Cullen Oren. Cullen is the son of Brett and Stephanie Oren. You may remember meeting his older brother, Tyler, in the newsletter about 3 years ago. Cullen is the middle child and is still at home sharing the attention with his younger sister, Ashlyn and family pets.

Cullen didn't really have much of an option of whether or not he really wanted to work at the car wash. As soon as Tyler graduated and left for college, Cullen was handed the "Oren's t-shirts" and has been with us ever since. Cullen will be graduating from Edgerton High School on Sunday, June 7. As you can tell, he loves to have fun no matter where he is. He always has a big smile on his face and when you really get to know him, his heart is even bigger! Cullen has enjoyed his years at EHS where he was involved in the Spanish Club, Student Council, played football for one year and basketball and baseball all four years. In the fall, Cullen will be attending Ripon College, in Ripon, WI. He plans to major in Sociology and play baseball.

Cullen's picture perfect day in life is where he gets to eat any kind of chicken, he just loves chicken, while laying in his "undies" watching TV all day! Best wishes, Cullen. We hope all your dreams and picture perfect day come true!

2015 Oren's Auto Body Scholarship Winner - Alexander Gosda

We are proud to announce our second annual Oren's Auto Body scholarship to Alexander Gosda! Alex will be graduating from Edgerton High School (EHS) on Sunday, June 7. He is the son of Dawn Gosda and lives with her in Edgerton. Alex is the baby in his family, he has an older brother and sister. Alex will be attending Blackhawk Technical College in Janesville and is enrolled in the two year Automotive/Mechanical program that starts in August.

Alex was involved in football and wrestling at EHS along with as many automotive classes as he could possibly take. Some advice he would give to underclassmen at EHS would be to always work hard for goals and don't give up. Some days it would be easy to give up, but don't.

He has always enjoyed working on vehicles and has fond memories of working on the family truck with his Dad and the proud moments when their project was completed and it was running smooth. Those memories are what drive Alex to want to become a mechanic in the near future. Alex knew he wanted to go to college and also knew that in order for that dream to be possible, he would have to work and earn money to help pay for college. In 2012 he went to the Buckhorn Supper Club and got a job bussing tables and doing dishes. Since then, Alex has worked his way up to helping in the kitchen making appetizers and prepping food. He says he enjoys his job because of the people he works for and with. He also likes meeting the new and returning customers they have in the restaurant every week.

Alex's excitement about the opportunity and privilege to go to college made our decision easy to award him this scholarship. We are excited to follow him through his journey. Study hard and best wishes, Alex!
