Message From The Shop

The sunshine and warm spring days have finally arrived. One of the many great things about living in Wisconsin is the change of seasons. Just as we start to get tired of one, it is about time for another to begin and we all certainly look forward to that. We can probably all agree that old man winter lasts longer than any of us care for.

Let's hope that our winter season with the salt and sand is behind us for another six months at least. Before it starts all over again, now is a great time to schedule your vehicle for a detailing. Salt and sand are the two elements that will break down the fibers of the interior carpet in your vehicle the fastest. An interior shampoo once per year to pull it all out will leave your carpet fibers soft and clean again. Ever get in a vehicle and there is a "rock" hard spot in the carpet or mat? That is a build up of salt and sand in the area that never got removed. The carpet fibers are beat down. Keep your vehicle interior fresh, clean and new feeling with an interior shampoo at least once per year. Give Wendy or Mark a call and they will be happy to schedule that for you.

Spring also brings on graduations and the end of another school year. Seems like yesterday that we dropped Whitney off at St. Norbert College and drove home with very heavy hearts. But, four years flew by and she graduated on Mother's Day. It was a great celebration and we couldn't be more proud of her and her accomplishments. She will be staying in Green Bay and is employed by Schneider National. She is exploring the idea of starting on her Master's Degree in September and trying to find the right fit. Seth successfully finished his freshman year at UW Platteville. He enjoyed his semester there and looks forward to going back in September. For the first time in years, he will not be working for us at the shop/carwash this summer. He has a full time internship at Wilbur Ellis and will also be assisting with summer school again. Mom will probably try and sneak him on the schedule for a couple of Saturday shifts! And now the college visits start again at our house as Bethany closes out her junior year of high school. The year has flown by and she keeps us very busy running to all of her events. She likes being the "only child" in the house on a day to day basis, but will admit she looks forward to Whitney or Seth coming home for a visit too.

We are excited for a few of our employees and their fine accomplishments this spring too. Be sure to read about Austen Juve, our newest Repair/Refinish Technician, Nick Hessian and Jason Murray, both graduates of Edgerton High School on Sunday, June 4.

Enjoy the upcoming summer and drive safe! Shane Oren, Owner

Quality You Expect...Service You Deserve!

Salute to Our 2017 Seniors!

Congratulations to all of the 2017 graduating seniors! A couple of them are graduating from Edgerton High School on Sunday, June 4 and they have been employed at Oren's. Good luck, guys!

Nick Hessian

Nicholas (Nick) Hessian is the son of Aaron Hessian and Kathy Hessian. Nick has one brother, Sam, who is a sophomore at Edgerton High School. He has a chocolate lab, Macy, and a bernese mountain dog, Finley. Nick, and his parents, were born and raised in Edgerton. We have known Nick and his parents for many years. After Seth left for college and we needed another carwash employee, Nick came to the rescue. Nick was employed with a few other seasonal jobs before coming to Oren's with the most recent at the Towne Country Club for two summers. His plans after graduation are to get a job in construction and eventually get training and education to become a heavy equipment operator. Good thing Nick is a hard worker and likes the outdoors! While in high school, he was involved in football, baseball and FFA. His advice to all underclassmen would be to "enjoy every second of high school while you get to be there spending time with your friends and don't waste any opportunities." If Nick could layout his picture perfect day, he would be hunting in the morning, spending time with his friends and family during the day and head out fishing in the evening. Somewhere in that mix he would probably be eating pizza and steak as those are his favorite meals to indulge in.

Wishing you all the best, Nick!

Jason Murray

Jason Murray started washing cars his sophomore year. When we were looking for help at the carwash, Seth said Jason was looking for a job and was a good kid. Jason is the son of Jason and Angie Murray. He also has a younger sister, Lexis, who is finishing up her junior year at EHS. The family has two dogs, Bentley and Bella. Jason was born in Madison, WI and relocated to Edgerton in 2005 when his parents wanted a change of scenery. After graduation, Jason will continue his journey to becoming a licensed electrician. He will start full time work for VanBrocklin Electric, Janesville, where he has been working in addition to working in the carwash. In August, he will start his first of a five year apprenticeship at Blackhawk Technical College. Jason is a laid back kind of guy. That became more obvious when he said his picture perfect day would be eating his favorite meal always and forever, homemade spaghetti, and hanging out with his friend, Maddy. He enjoyed his time at EHS where he participated in Elm Tech, the team that creates the school newscast. He also played golf his freshman year and basketball for a couple of years too. His best advice to kids still in high school is, "always keep in mind where you want your future as a student to end up." His job at Oren's taught him how great it is to be a part of the community. He met a lot of nice people working in the carwash and appreciated the encouragement to always do his best and provide a quality job done. We know Jason will continue to work hard and do his best.

Best wishes for continued success, Jason!

Seth Oren (L) presents the 2017 Oren's Auto Body Scholarship to Travis Aderhold (R)

Travis Aderhold - 2017 Scholarship Recipient

We are extremely excited to be able to award our fourth annual Oren's Auto Body scholarship to Travis Aderhold. Travis will be graduating from Edgerton High School on Sunday, June 4. He is the son of Rob & Carrie Aderhold and has one younger brother, Brandon. Travis has shadowed his Dad work on vehicles all of his life and always is asking questions on how to fix something. He said, "I am intrigued by the mechanical aspects." Travis' father drives a fuel truck for a living and notices that when something breaks down there is a shortage of technicians available to get it fixed. Travis hopes to help assist with the demand and fulfill his desire to work on the mechanics of vehicles. During his time at Edgerton High School, Travis has taken many, many shop classes and was a member of the boys golf team for four years. We were very impressed to learn that Travis has already learned to "give back" to his community by volunteering with the Edgerton Lions Club and Boy Scouts of America. Way to go, Travis!

Travis is enrolled to start the Diesel & Heavy Equipment Technician program at Blackhawk Technical College. This program prepares students to service and repair diesel trucks and diesel-powered agricultural and industrial equipment. Travis will improve on skills needed to interpret technical manuals and develop a broad base of skills to build on to enter into the large and expanding field of diesel and heavy equipment service and repair. Sounds like this program is exactly what Travis is looking for. Good luck.

Austen Juve
Repair/Refinish Technician

Meet Austen Juve - Repair/Refinish Technician

Austen graduated from Stoughton High School in 2015 and knew immediately that he wanted to attend the two year Auto Collision Repair/Refinish program at Madison College. Austen lives in Stoughton and is the son of Daren and Crysta Juve. He has a younger sister, Alexis, at home and is finishing her sophomore year at Stoughton High School.

We are extremely excited to have Austen on our shop floor! Austen has been working with us as an intern while attending Madison College. He proudly graduated from the two year program on Friday, May 12 and started full time work at Oren's on Monday. Austen is an extremely hard worker. While attending school full time, he would come to work on Monday and Friday afternoons and work with Shane every Saturday to learn as much as he possibly could. He has a passion for vehicles and making them look good. The very first requirements for a successful technician.

During his time at Madison College, Austen participated in the 43rd and 44th Annual Skills USA Wisconsin competitions. These competitions included approximately 40 college students from around Wisconsin that came together to perform estimating and refinishing skills and were judged on their performance. Austen placed 3rd in 2016 and came in 2nd place in 2017! Austen also completed his ASE Certification Collision Painting/Refinishing, Non-Structural Analysis/Damage Repair, Structural Analysis/Damage Repair and Mechanical and Electrical Components. We are proud to have Austen at Oren's and look forward to him growing in the industry even more.
