Shane Oren
President

Message From The Shop

I officially started working in the family business at age 12. My career began in the car wash and as they say, "the rest is history." Washing and drying cars was the beginning of my future to own/operate Oren's Auto Body.

I have always had a passion for taking things apart and putting them back together just to see if I could do it. One day, my Mom found me outside and I had taken all the spokes out of the wheels of my bicycle "because I wanted to see if I could figure out how it went back together to work again". By nightfall, I was back on riding. When my friends had something that was broken, they would ask me how to fix it. I love the "challenge". Now, not everything I touched at this young age was a success. I took many lumps and bumps along the way. I get excited when a "challenge" is towed into the body shop and jaws drop with the look of bewilderment of "how will that vehicle ever look good again?" I lie in bed at night planning out the repair in my head and hit the ground running the next day. When the car is complete and delivered back to the customer and they are astonished, excited, amazed and have the "wow", it makes my day! This is the work that I enjoy most. Bring me your "challenge!" -- Shane

I NEVER dreamed that this is where I would end up and usually admit, "I married into it and the rest is history."

After graduation from college, marrying Shane and having two children I worked in Madison for several years. This job was not as flexible as we needed for our family. So, I took a job closer to home to be with the kids more. Four months after we purchased the business, we had our third child and life was crazy! The shop was busy and Shane had visions for new and exciting things but needed help to meet the new goals. I thought he was crazy when he suggested that I come to work at the shop with him, work and live together everyday?

It was a great decision for our entire family! I enjoy helping all of our customers make the not so pleasant "accidents" turn into a positive outcome with quality repairs and outstanding customer service. In addition, I work with all of the insurance companies and handle insurance claims from start to finish, daily accounting functions and whatever else needs to be done. I believe the best experience of working with a family owned and operated business is the continuity of working with the same faces for years and years. Hopefully, my and Shane's faces will be the ones you continue to work with for years and years to come. -- Wendy

REMINDER – Oren’s Auto Body Offers Annual Scholarships

Do you know a soon to be high school graduate? It’s almost that time of year again, thousands of young graduates will be trying to figure out “what to do with their life.”

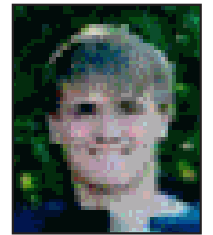

We strongly believe in the future of qualified auto repair technicians. Young people need to further their education and learn the proper skills to keep our industry strong. We support that by offering two \$250 scholarships to graduates that plan on attending a two year technical college in the automotive field. Automotive field could be auto mechanics, welding, and, of course, auto collision repair and refinishing. Stronger consideration will be given to candidates interested in the auto collision/auto body repair and refinishing fields.

APPLICATION DEADLINE IS APRIL 15, 2017.
Scholarships recipients will be notified by May 1, 2017.

HOW TO APPLY:

Go to orensautobody.com. At the bottom of the home page, click on Apply for Scholarship. Simply fill out the application and complete the essay questions in less than 100 words and submit via email to wendy@orensautobody.com

Ladies...we need you to submit an essay and application.

Oren’s Auto Body Joins “Craftsman With Character” Program

Are the skilled trades a great career option for our young people?

Oren’s Auto Body shop thinks so! This semester, we are joining Edgerton High School’s (EHS) Craftsman With Character course taught at Edgerton Gear. The focus of this semester course is to develop the character qualities a young person needs to be successful while giving them an opportunity to explore the different trades such as machining, auto mechanics, auto body repair/refinish and machine maintenance. The students are in class once a week but then job shadow the other four days at various Edgerton businesses, observing skilled tradesmen at work. We are excited to take part in investing in the future of our youth and letting students see what we do here at Oren’s Auto Body. We hope by partnering with EHS and Edgerton Gear, young students will see the opportunity of a great career and enroll in the two year Repair/Refinish Technician course at Madison College. We are committed to keep the industry growing with strong, qualified and well trained technicians.

DALTON ENGELHARDT – 2016 Scholarship Recipient Collects

Remember Dalton? He was awarded an Oren's Auto Body Scholarship last May when he graduated from Milton High School. Dalton started Madison College in August 2016 in the Repair and Refinish Technician program and was proud and relieved to finish his first semester!

He agreed with most new college students, college is certainly harder than high school, but is learning a lot. One of his biggest stressors is finding a parking spot. Ha! He is enjoying college and is back at it this semester.

Dalton shared his report card with good grades and his new upcoming classes for the second semester and collected his scholarship money.

One semester down, three to go. Best wishes for continued success, Dalton!

Crock Pot Potato Soup

ANOTHER GREAT RECIPE – Crock Pot Potato Soup These cold, damp days of winter are bone chilling. This is a delicious recipe that our family enjoys coming home to at night to fill and warm up with. It is very quick, simple and makes a comforting aroma to open the door to. Enjoy!

- 8 oz cream cheese, cubed
- 6 c. diced potatoes, can leave skins on, wash good
- 1 c. diced ham
- 1 small onion, chopped
- 3 – 14 oz cans of chicken broth
- 1 can cream of chicken soup
- 1/4 tsp. pepper

Put diced potatoes, meat and onion in crock pot. Mix together cream cheese, broth & soup until smooth. Pour over potato/meat in crock pot. Cook on low 6 – 8 hours.
